

Dear Parents:

Kindergarten is the foundation for your child's educational future. It is not only a tremendous responsibility for the teacher, but for the parents as well. Kindergarten has a strong academic focus which requires discipline, concentration and faithfulness.

Your child needs to be at school every day, unless he is ill. Oral teacher instruction cannot be duplicated in papers. It is very important that your child gets nine to ten hours of sleep nightly to ensure better health and mental alertness.

Academics are important, but a good self concept and attitude are supreme. Every child is gifted in some way and finding his strengths and building on these are important. I encourage parents to talk with me. Working together, we can help your child do his best. Individual needs will be considered while maintaining group guidelines and rules.

Your child will need the following supplies:
